

XB-21 BasSport

The XB-21 Tournament Elite tested by Bass and Walleye Boats Magazine ran 82 mph (GPS) with a 200 Optimax Mercury, two men, trolling motor, three batteries, and fuel. Tested weight was 2600+ lbs.

Introducing the future of bass boating! The XB-21 BasSport is available now! Forty-seven years of experience and seven years of intense R&D have culminated in the boat that bass fishermen everywhere have begged us to build. The new Allison XB-21 BasSport is big, bold and elegant. It will out perform anything in its' class. It will go further on a gallon of fuel than anything in its' class. It will tame the roughest bass water better than anything in its' class. Actually Allison's latest creation is so functional, so efficient, and so user friendly that it is in a class all by itself. Check out the details for yourself and take a test ride. We know you will agree.

Convenient tackle storage

Trash Receptacle

Rod storage—above & below deck

Aerodynamic driver console tilts forward for stand-up access to the electronics tray containing an automotive style fuse panel, wiring, and other electronic components. The driver cockpit is ergonomically designed for comfort and control efficiency. Special features include built-in trim switches on the wheel, custom gear shift, and foot throttle.

Side console model

Insulated ice cooler

Passenger Console
